#### PAPER & CARDBOARD RECYCLING SYSTEMS

Reconomy can collect and recycle 100% of the waste cardboard and paper produced by your company. Your company's impact on the environment will be reduced, which makes economic sense from a commercial point of view too.

Collections are made using a variety of equipment to suit the individual service required by the customer. These include:

- Roll-on Roll-off open top and compactor bins
- compactor units
- vertical and horizontal balers
- air systems
- standing trailers
- pallet boxes
- tipping stillages
- wheelie bins
- office recycling bins

#### SECURE SHREDDING SERVICE

Reconomy also offers a secure shredding service for confidential material which fully complies with the terms of the Data Protection Act and fully meets the PPA (Periodical Publishers Association) standards.

- Loads are sealed upon collection
- Full tracking and monitoring, including vehicle tracking and CCTV monitoring
- Material is shredded immediately upon receipt
- Destruction certificates are issued upon completion, complete with photographs

Reconomy is committed to reducing CO<sub>2</sub> emissions where reasonably possible. In 2009, Reconomy opened the UK's largest 'Green Roof' recycling facility and has an on-going desire to recycle sustainably in an environmentally sensitive manner.
