DON'T LANDFILL YOUR OFFICE WASTE – WE CAN RECYCLE IT.

Mainstream office recycling solutions typically enable high volume standard wastes such as paper, card and plastic to be collected and recycled. But when it comes to more unconventional waste, companies often need a number of different providers to dispose of it responsibly.

This is where Reconomy can help. Instead of calling in a number of specialist waste management companies, Reconomy can dispose of all of your waste and recycling under one easy solution.

Reconomy's bespoke service offers a tailored solution to your office environment, examples including:

- Paper
- Plastic bottles
- Security shredding
- Fluorescent tubes/lamps
- Vending cups
- IT equipment
- Batteries
- Glass
- Cardboard
- Toner cartridges

All companies have a legal responsibility to dispose of their waste appropriately, as well as an ethical obligation to ensure it is recycled wherever possible. Reconomy offers a simple, sustainable method for dealing with the whole of your company's waste, delivering complete convenience, peace of mind and maximum cost saving benefits to your business.

Reconomy is committed to reducing CO₂ emissions where reasonably possible. In 2009, Reconomy opened the UK's largest 'Green Roof' recycling facility and has an on-going desire to recycle sustainably in an environmentally sensitive manner.
