Version 0.3.0

- Username
- Password
- Vehicle registration
- When ready, press 'Login'.

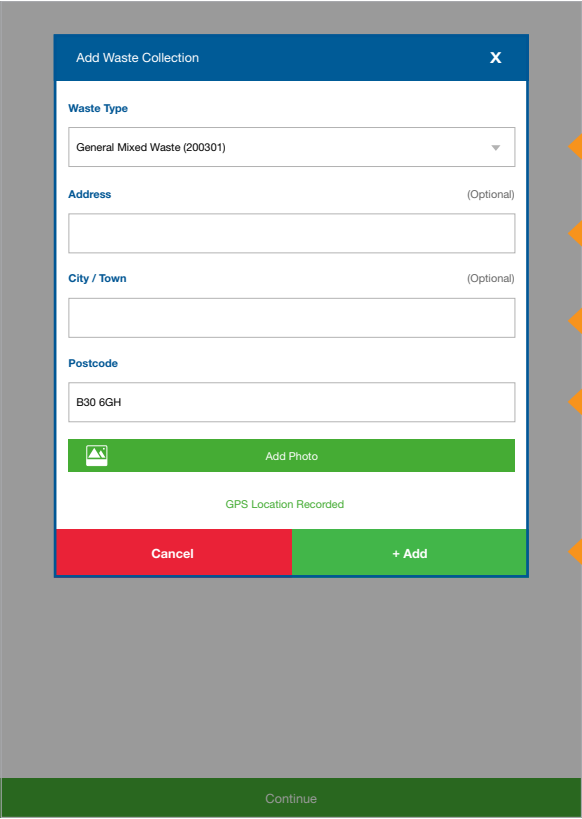

Choose your material

2

Once logged in, this is the first screen you will see. Use this screen to create a new job on the App, set the parameters for the job and optimise your journey route by including details of your follow-on destination.

Use this button to add your waste collection. This allows you to document where certain waste has come from if you have made multiple collections.

Fill in the information required to confirm your waste collection details, including movement type and load classification. The address fields are optional.

When ready, press 'Add' to add this collection and return to the previous screen.

Next Job Postcode:

Continue

Select whether your new job is to Tip Only, Tip & Collect or Collect Only.

Enter the postcode for your follow-on destination. This will help optimise your route by taking your onward journey into account.

When ready, press Continue.

Choose your product

3

Depending on whether you have selected Tip Only, Tip & Collect, or Collect Only, different drop-down menus will appear. Select what type of product you are carrying for tipping, need to collect, or both. Options may change depending on set-up.

General Builders Waste

Dismiss

Continue

Choose the appropriate product from the drop-down menu.

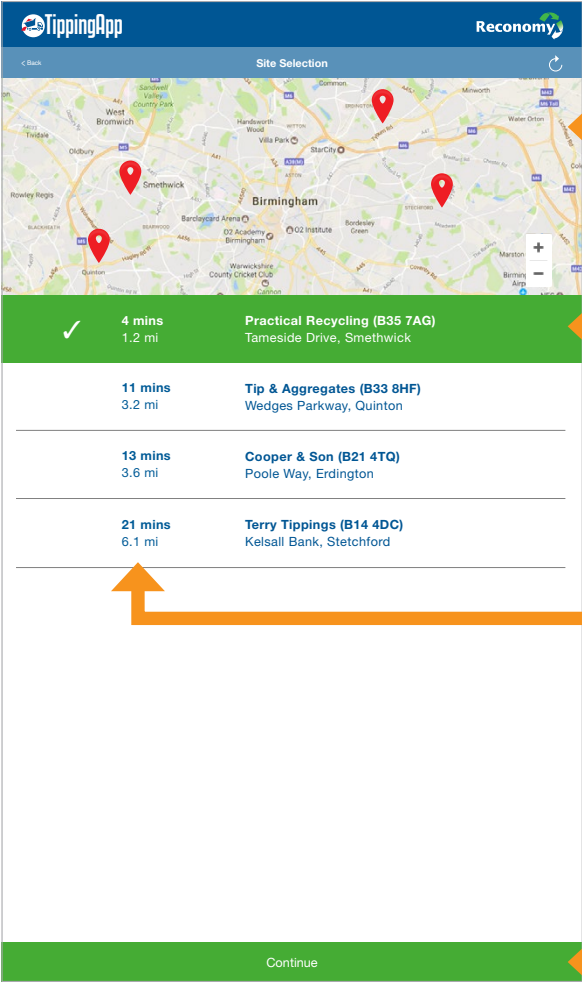

When ready, press 'Continue'.

Choose your site

4

Use this screen to identify the various sites or facilities where you can tip or collect the required material.

Available sites that accept the product being tipped or collected are shown on the map. All will be sympathetic to the follow-on journey postcode entered on screen 2.

Select the most appropriate facility from the list.

The mileage and time shown combines your newly created job and your follow-on journey.

When ready, press 'Continue'.

Create your movement

5

This screen summarises the creation of your new job, including the relevant movement information. Please note that once you press continue at the bottom of this screen, an order will be placed. This means that your company will receive an automated invoice for this job from Reconomy.
